Background

GE Vernova Grid Solutions is committed to customer care and the support of our offerings. As part of this commitment, we strive to design high quality offerings, provide knowledge-based support, and to communicate the availability of new features or offerings as well as the pending discontinuation of manufacturing for older offerings or design variants.

On 22nd November 2017, the discontinuation of the manufacturing and supply of DAP-AT UNO-4673A & UNO-4683 Server Platform was announced.

On 20th March 2018, this notice was revised to include an appendix.

On 14th December 2025, this notice was revised to remove the appendix and also revised in accordance with GE Vernova rebranding guidelines.

Last-Time Buy Window

Please plan the purchase of any additional quantities or spares that you need. Orders should be placed prior to the last order date shown. We reserve the right to modify the set last buy date at our sole discretion, depending upon the time period during which limited supplies are available.

OFFERING	LAST ORDER DATE	ALTERNATIVE
DAP-AT 4673A Server Order Code: 04-04673A-x	30th September 2018	DAP-416 Multi-Function Substation Server Or Equivalent (TBD)
UNO-4683A Server Order Code: 04-04683	30th September 2018	DAPserver On Universal Controller Platform (Quad Core) Or Equivalent (TBD)

Support

Returns and repairs will continue to be processed, dependent upon the availability of replacement parts - estimated repair service time frame is 5 years from the initial publication date of this notice.
