Background

GE Grid Solutions is committed to customer care and the support of our products. As part of this commitment, GE strives to design high quality products, provide knowledge-based support, and to communicate the availability of new features or products as well as the pending discontinuation of manufacturing for older products or design variants.

On October 22nd, 2019, GE Grid Solutions announced the discontinuation of manufacture and of **iSTAT M243** including all models, configurations, mods and accessories, but not retrofit kits.

On October 31st, 2019, the list of alternatives was updated.

This notice does not apply to any other model not explicitly listed.

PRODUCT	LAST ORDER DATE	ALTERNATIVE
iSTAT M243	31 st July 2019	iSTAT M233 or M253

Recommended Alternative Products

Visit our website at <http://www.gegridsolutions.com/multilin/selector/> for more information about alternative products.

Support Timeframe

GE is committed to supporting our customers' protection and control needs. GE's warranty provision is unaffected by this End-of-Manufacturing Notification. After the published last order dates elapse, a repair service follows subject to material availability, which extends to repairing failed components and modules, but not to providing advanced replacements or a newly-produced finished identical product or new module as a replacement/spare.

Customers should contact GE if they need further information concerning the level of service that is provided on a per product basis.

For Additional Information

If we can provide assistance with migration to new products, please contact us for help. Advice and assistance is also available via:
