EnerVista™ P30 Setup Software v2.02   Product Bulletin

Date: October 16, 2014   **Classification**:   GE Information

Release Notification of EnerVista P30 Setup Software v2.02

The EnerVista P30 Setup software follows the user friendly structure characteristic of the industry leading EnerVista suite of software applications.

The EnerVista P30 Setup application provides easy access to the Multilin P30 Phasor Data Concentrator (PDC) feature set through an intuitive tree view of the Multilin P30 parameters for a clear and simple configuration process. A series of convenient trouble-shooting and diagnostic tools such as trending, Multilin P30 sequence of events recorder live view of actual values is available in EnerVista P30 Setup to optimize the testing, commissioning and monitoring activities.

NOTICE   EnerVista P30 Setup software v2.02 is now available for download.   Version 2.02 supersedes earlier versions of EnerVista P30 Setup software. Upgrading from a previous version of the P30 Setup software to the new 2.02 release can be done via EnerVista Launchpad or downloaded directly at: http://www.gedigitalenergy.com/multilin/catalog/p30.htm

EnerVista P30 Setup Software v2.02 Enhancements

- Added support for Windows 8.1 (32 or 64 bit).
- Added support for Windows Server 2008 R2.

EnerVista P30 Setup Software v2.02 Resolved Issues

- Addressed permission issue when trying to open the Network menu in order to change the IP address in a settings file.
- Addressed problem when retrieving large Historian data files (i.e. ~20 MB or larger).

Upgrade

This upgrade can be done either via EnerVista Launchpad or by direct download from the following site:
http://www.gedigitalenergy.com/multilin/catalog/p30.htm
If using EnerVista Launchpad, follow these steps:

1. Open EnerVista Launchpad
2. Click "IED Setup"
3. Click "Check Updates". Note: this will check for updates to all of the IED setup software shown.
4. Select the P30 version 2.02 upgrade for download.
