

## W650 Firmware Release Notes / History (Rev 0)

FIRMWARE VERSION	BOOT PROGRAM VERSION	CHANGES DESCRIPTION	MODELS	DATE
3.02	4.00	<ul style="list-style-type: none"><li>• First version of the product W650</li><li>• Available in English language only</li></ul>	All models with hardware version 01 (See Note 1)	January 27 <sup>th</sup> 2006

Note (1):

Hardware version 00 incorporates standard CPU board.

Hardware version 01 incorporates enhanced CPU board.

The hardware version of the relay can be verified in the identification label or in the bottom bar of EnerVista 650 Setup software version 3.00 or later when communicating with the relay.

If the identification label of the relay does not show any hardware version:

- Models with options 4 and 5 for I/O boards or option 6 for IEC61850 protocol are always hardware version 01.

- Otherwise, hardware version is 00.
